mohamed.fahmy@ivolution-ai.com 

<https://www.linkedin.com/in/mohamed-fahmy-5b360ab/> 

Fahmy is widely regarded as an authority in the fields of management consulting, strategic planning, emerging technology adoption, e-learning technologies, and venture capital. He established himself as a prominent thought leader in the realm of venture capital, Deep-Tech investments, and AI-driven transformation, regularly sought after for his insights and expertise in industry forums, events, and publications. With a distinguished record of accomplishment in boards, he has contributed significantly to the strategic direction and governance of several Egyptian and regional companies, non-for-profit organizations, and government agencies.

## Industry Expertise

Throughout his 30+ years in consulting and advisory roles, Fahmy has cultivated a profound understanding of a wide array of industrial sectors, including retail, healthcare, education, manufacturing, technology, and investment, through collaborations with leading regional organizations. He seamlessly integrates this deep sectoral insight to design AI-driven solutions tailored to address specific industry challenges to deliver operational efficiency and drive innovation.

## Strategic Vision

Fahmy is a strategic thinker with a track record of pioneering initiatives, including founding the Middle East's first e-learning platform in 2010 and establishing the region's first deep-tech fund in 2019, which catalyzed investments for AI, Quantum Computing, and Blockchain. In 2024, he founded iVolution AI to bridge cutting-edge technology with the MENA region's needs, driving AI adoption and digital transformation strategies that empower businesses and governments to achieve measurable growth.

## Board Management Experience

Fahmy has significant prior experience serving on boards of directors, demonstrating an understanding of governance best practices and regulatory requirements. Fahmy served on numerous boards of Egyptian and regional companies, non-for-profit organizations, and government agencies. His role at iVolution AI further showcases his ability to align governance frameworks with the rapid evolution of AI and emerging technologies.

## Innovation and Tech Insights

Fahmy is a renowned regional speaker and consultant with extensive expertise in digital and emerging technologies. His knowledge and experience across various sectors empower him to drive innovation and digital transformation initiatives effectively. As the founder of iVolution AI, he has focused on delivering AI-led emerging technology solutions that tackle industry-specific problems across sectors such as manufacturing, retail, and finance in the MENA region.

## Financial Acumen

Experience in overseeing financial planning, risk management, and ensuring financial stability. With expertise developed through education and practice, Fahmy is able to identify key financial analysis to guide board-level discussions.

## Network and Influence

Fahmy has an extensive professional network that can be leveraged for strategic partnerships, business development, and market insights. His leadership at iVolution AI has further strengthened these networks by building partnerships with global AI leaders, data scientists, and innovators, positioning the firm as a trusted advisor for digital transformation.
